## NETWORK OF INTEREST

POWERED BY

## ABOUT...

The « **Robotics for Social inclusion** » Network of interest is an online community dealing with the challenge of providing effective robotics solutions for the elderly and other people at risk of exclusion.

This network of Interest is powered by the RAPP project to foster the development of this emerging market.

## WHY JOIN?

- 1. LEARN** everything about the latest technologies and market trends in robotics for social inclusion. A quarterly newsletter gathers for you the best fresh social inclusion robotics news.
- 2. CONNECT** to a community of research and business profiles in Ambient Assisted Living and discover more projects and initiatives that may match your activity and interests.
- 3. INTERACT** with healthcare professionals, robotics experts, developers, potential adpoters or investors, in a private LinkedIn group to share your views and develop your knowledge and relationships in robotics for social inclusion.

## OPEN SOURCE SOFTWARE PLATFORM

TO DELIVER SMART ROBOTIC APPS  
FOR SOCIAL INCLUSION

RAPP is an initiative supported by the European Commission that provides a marketplace of robotic applications addressing social inclusion to answer the increasing need of carers.

**Robotics developers**

For developers, the **RAPP platform** and **API** have been released as open source software in 2015, significantly easing the development of powerful multi-platform apps.

**Healthcare professionals**

For robot owners and healthcare professionals, the robotic apps marketplace called «**RAPP store**» will soon be available.
